

REGAIN YOUR HEALTH
WITH US IN TURKEY

MEDICAL TOURISM SERVICES

What are the reasons to undergo treatment in Turkey?

Turkey is among the top ten medical tourism countries and is the 3rd largest JCI accredited country in the world. MTS works with leading doctors and technologically equipped clinics that provide examinations and treatments based on the latest technological innovations in the medical sector. We provide patients with a personalized approach and innovative treatments at a global level.

Most suitable options for patients and best integration for agents!

We do combined medical packages that integrate vacation options with high-level medical treatments. Hereby, patients have a wonderful holiday on the south coast of the mediterranean sea of Turkey while they have treated with the package they choose.

Fix price treatment packages would be a good choice for tourism agencies to integrate tailor-made medical services and open new possibilities for your customers.

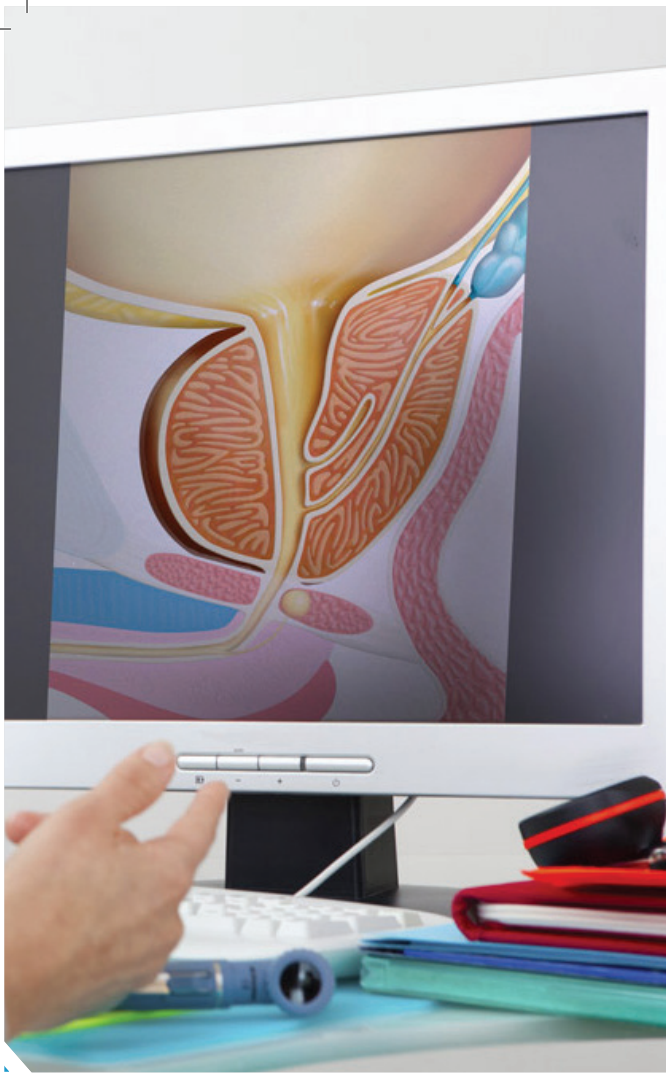

Target: High Satisfaction Level of Patients

Team working helps us to reach a high satisfaction level of patients.

International Accreditation

Patients treated by board-certified top reputable doctors in A-class hospitals accredited by international commissions.

Our partner hospitals have partnerships with MD Anderson, EBMT, Memorial Sloan Kettering Cancer Center.

International Experience

Medical tourism services since 1st day of creation looked for perfection in medical tourism. We cooperate with nationally accredited leading physicians with international work experience, scientific works, recognition, and awards. We provide the most innovative treatments that have been approved by FDA, national and international medical associations.

International Network

An expanded network is one of the basics of medical tourism. We build strong partnership relations with medical facilities and agencies abroad. That is why patients could always find support in their country as well.

Steps To Your Health

Under the MTS assurance we can provide the doctors and hospitals for all your treatments, we arrange your to trip and stay in Turkey to have your operation and treated at the most affordable price.

What is the first step to undergo treatment in Turkey?

You can send us the current health reports and medical imaging (MR, CT, XRAY) by filling out the form on our web site or by contacting us.

After your report and images are evaluated by our specialist, you will be informed in details about your medical treatment, duration of stay and cost.

Niche medical treatments that make Turkey the best choice to have treatment:

ORTHOPEDY

Minimal invasive endoscopic spine surgery, laser spinal treatments, stem cell treatments, orthopedic endoprosthesis, and robotic surgeries done by leading orthopedic worldwide recognized specialists, valued members of international associations.

ONCOLOGY

Cancer treatment is one of leading directions in Turkey, we cooperate with leading doctors team and prepare special treatment methodology by personal genetic investigation and personalized treatment that starts with genetic healing and combined with latest technology devices and pharmacological solutions.

ROBOTIC SURGERIES

Today in the world, 80% of oncological urologic and gynecologic surgeries are done by a robot-assisted device called Da Vinci. Robotic surgeries help to achieve the most successful minimally invasive surgeries with better accuracy than classical laparoscopic surgeries, especially with very experienced hands.

DENTISTRY

We providing for patients unequal dentistry solutions, starting with digital implant placement based on tomography, 3D smile design that visualize and gives opportunity to see results to basic procedures such as veneers, EMAX, Zirconium crowns, prosthesis and teeth whitening. Patients who requires to combine teeth treatment and vacation can use our fix cost dental treatment packages.

More information about doctors you can get by visiting our website.

All MTS patients receive complimentary interpretation and assistance services.

OPHTHALMOLOGY

Turkey is one of leading destinations for laser eye treatments. Cooperation with leading ophthalmology medical centers and experienced physicians provide for patients best solutions for all FDA approved treatments.

AESTHETIC SURGERY

Turkey is one of the leading countries with the 6th highest number of plastic surgeons in the world. Patients receive aesthetic treatment that starts with an uncharged second medical opinion and the preparation of a personalized medical package. Patients receive highly standardized treatment by niche aesthetic specialists accredited by national and international boards of aesthetic surgeons.

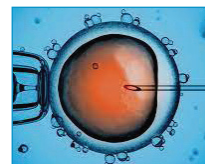

BARIATRIC SURGERY

Obesity is one of the main problems in the world and continues to rise. Bariatric surgery is a practical treatment choice for weight loss and treatment for diabetes type II patients. Bariatric surgeons applied gastric balloon, perform gastric sleeve and bypass surgeries on patients who have obesity or diabetes illness. Gastric sleeve surgery help to lose up to 70% excess weight, patient can easily have 360 body lift surgery for body tightening after 1-year post-bariatric period.
